## Empowering Innovative Thinkers

### What is CEO?

The Collegiate Entrepreneurs' Organization was formed to promote ideas and assist innovative thinkers. The UNT chapter of CEO strives to provide students with an avenue to explore their creativity and innovate within the community.

CEO welcomes all undergraduate students and aims for diversity within the organization. We strive to provide competitions and workshops that will benefit students of all majors in their professional career goals.

CEO participates in community events such as Startup Denton, Techstars, Hackathons, and more. The organization operates through Innovation Greenhouse: an avenue for students to transform their ideas into a reality.

**innovation**  
GREENHOUSE

### Why are we seeking sponsorship?

CEO would like to provide students with competition, networking opportunities, and hands-on experience that they could not otherwise obtain in the classroom.

This semester, we wish to hold an Idea Competition open to all students. We want this opportunity to inspire students to be proactive in their ideas! We would also like to send two students to the national conference to learn more about how to grow our chapter here at UNT.

We are seeking sponsorships to fund marketing campaigns, student memberships, conferences, workshops, and the Idea Competition's reception and prize money. As a sponsor company, you will be promoted on campus, have multiple recruitment opportunities, and empower students!

Invest in future business leaders and foster the entrepreneurship spirit in the land of Mean Green!
